Different viewpoints and
 anticipating tomorrow's changes

THE FIRST WEEK DEDICATED TO IOT

in Hauts-de-France, organized by the Cluster of the Internet of Things in EuraTechnologies (Lille) and in several cities in the region.

Join the IoT Week by CITC

The IoT Week is a week in Hauts-de-France around different events. This unprecedented event is the opportunity for professionals to raise issues and news challenges of this technological revolution.

A program in the heart of tomorrow's issues:

3 DAYS - 3 ISSUES

Through masterclasses, plenary lectures, round tables, barcamps, Hackatons, debates, trainings and many other activities, the IoT Week by CITC offers a full and varied program around three major development axes of our society.

#IOT & CITY INNOVATIONS

#IOT & INDUSTRY

#IOT & SOCIETY

This is a week in Hauts-de-France around mixed events, part of the European mainstream #IoT events.

A technological revolution at the crossroads of formal, social and human sciences.
